

## **Planetarium Meteorology Internship**

This internship is designed for those looking to become science communicators in meteorology and astronomy. Interns will focus on sharing meteorology and astronomy through live planetarium star shows, educational programs, daily discovery public activities, and special events such as Weather Proof, the museum wide day all about weather. The intern will also create their own planetarium show tailored to their specific interest in meteorology and/or climatology.

Other things to know about this internship:

- Interns will be working with a variety of technology and must be willing to work at computers for long periods through the day at times in a dark room
- Interns must have a strong sense of communication
- General knowledge of meteorology is preferred. Astronomy knowledge is not required.
- Must be able to work independently and improvise when necessary to provide quality programming
- Weekend, holiday, and occasional evening availability is required

Please email Candice Jordan, Planetarium Administrator, [candicej@cityofgastonia.com](mailto:candicej@cityofgastonia.com), a resume and cover letter to be considered for this internship.
